High Points:

Car Radio

Powerful Hardware

Features an Octa-Core Processor 7862 with 8GB RAM and 128GB ROM, ensuring smooth performance on a 13.1-inch HD touchscreen with 1920x720 resolution.

Smart Connectivity

Supports wireless Apple CarPlay and Android Auto, allowing for hands-free operation of phone functions, navigation, and entertainment through Bluetooth

Versatile Navigation & Media

Built-in GPS with offline maps and support for multiple navigation apps, alongside access to streaming services for music and videos

Enhanced Safety Features

Includes support for a rear view camera with dynamic guidelines, original steering wheel control for easy operation, and multi-language support for diverse users

AC Panel

Enhanced Display and Durability

Features a 10.4-inch IPS LCD touch screen with 1920x1080P resolution, designed for easy operation and made from tempered, explosion-proof, and scratch-resistant material.

Original Car Function Support

Retains all original air-conditioning controls, including temperature adjustment and airflow settings, ensuring a seamless user experience.

Intelligent Airflow Management

Offers multiple airflow options and automatic temperature control, allowing for quick adjustments and energy efficiency based on driving conditions.

User-Friendly Features

Supports day/night mode for display brightness adjustment, language switching for menu navigation, and a non-destructive installation process that preserves the original car setup.
