#### High Points:

##### Smart Cockpit Solution:

You can upgrade your original mechanical instrument to a smart cockpit, enhancing your driving experience with a 12.3-inch HD display and advanced features for a modern, intuitive interface.

##### Fast and Responsive Performance:

With a dual-core T507 CPU and Linux system, you enjoy quick startup times (under 2 seconds) and stable, long-term use, making your vehicle's instrument cluster more efficient and reliable.

##### Comprehensive Vehicle Information:

You'll have easy access to essential data, including fuel consumption, tire pressure, engine speed, oil temperature, and much more, all displayed clearly on the high-definition screen, so you can monitor your car's performance at a glance.

##### Customizable Driving Experience:

You can choose from multiple driving theme styles (Classical, Sport, Off-road), adjust settings like brightness and color, and even set your own preferences for the digital interface, ensuring a personalized driving dashboard.

#### More Specifications:

<b>Key Driving Data and Vehicle Status</b>	Displays average fuel consumption, TPMS, and fuel mileage warnings
	Digital engine speed, speedometer, and driving statistics
	Built-in compass and car body posture (front/back tilt angle)
