High Points:

Smart Cockpit Upgrade:

Transforms your car's original mechanical instruments into a modern, digital smart cockpit with a 12.3-inch HD display, enhancing both functionality and aesthetics.

Fast and Reliable Performance:

Powered by a dual-core T507 CPU with a 1.5GHz main frequency, the system offers fast startup (under 2 seconds) and smooth, long-term performance, ensuring efficiency during every drive.

Comprehensive Vehicle Monitoring:

Provides detailed insights into fuel consumption, tire pressure, engine speed, oil temperature, and more, giving you a complete view of your car's status at all times.

Customizable and User-Friendly:

Easily switch between multiple driving theme styles (Classical, Sport, Off-road) and enjoy quick, intuitive control via steering wheel functionality, all while keeping your car's original features intact.

More Specifications:

Key Vehicle Monitoring Features	Digital display of average fuel consumption
	TPMS (Tire Pressure Monitoring System) display
	Fuel mileage warning
	Driving statistics display (trip data)
	Engine speed and speedometer digital display
Advanced Customization and Smart Functions	Built-in compass and car body posture display (front/back tilt)
	Displays water temperature, oil pressure, battery voltage, and gearbox oil temperature
	Multiple driving theme styles (Classical, Sport, Off-road)
	Doors open reminder (all doors, tailgate, hood)
	Quick 2-second startup with steering wheel control for intuitive operation
Language Support	Supports multiple languages, including English, German, Spanish, and more
