High Points:

Upgrade Version and Processor

The device runs on Android 13 with 8GB RAM and 128GB storage, utilizing LPDDR4 memory for faster read and write speeds. The 8-inch HD IPS touchscreen supports 4K video, ensuring smooth user experience and seamless integration with vehicles.

Smart Connectivity Features

It supports wireless Apple CarPlay and Android Auto, allowing users to connect their smartphones via Bluetooth. This enables hands-free calls, navigation, messaging, and music, enhancing safety and convenience while driving.

Advanced Navigation and GPS

Equipped with an external GPS receiver, it supports various navigation apps (e.g., Waze, Navitel) and offers dual-zone functionality for simultaneous navigation and media playback. It includes offline maps and real-time traffic updates for improved journey planning.

Multimedia and Audio Support

The system features Bluetooth connectivity for music streaming and hands-free calls, as well as a powerful 48-EQ for personalized audio experiences. It supports various media formats and offers multiple USB inputs for device mirroring and fast charging. The device also supports multiple languages and comes with a 1-year warranty and lifetime technical support.
